

CHOOSING A SUBJECT

First choose a subject that has meaning to you. That connection makes it important. Do you like Pets? People, Flowers? Birds? Still lives? The possibilities for subjects are endless. Use your imagination and creativity where ever you go, pool, beach, home, nature walks. Look at everything through the eyes of an artist. Remember Andy Warhol's painting of soup cans. Everyday subjects can be works of art. Look at things with a different point of view. Crop it, Make it bigger. You decide and have fun. Each drawing you create will lead to new ideas and will build your artistic confidence. Experiment, explore, play, and practice.
